Products for professionals

Description:

Cartec Engine Cleaner MV40 is a viscous and effective cleaner for under the hood. This solvent-free product effortlessly removes contamination such as oil, grease and underseal thanks to its intensive penetration time.

Product benefits:

- ✓ Solvent-free, therefore much more environmentally friendly than solvents
- ✓ Viscous product, therefore longer penetration time
- ✓ Effortlessly dissolves grease, oil and road grime
- ✓ Pleasant scent

Application:

Cartec Engine Cleaner MV40 is used on engines, equipment, bodywork, door jambs and garage floors contaminated with dirt, oil and grease.

Instructions for use:

⚠ Always test the product in an inconspicuous place before use to prevent possible damage.

1. Depending on the contamination, use the product from pure to a maximum of 1:3.
2.
 - a. Mist the entire engine compartment with Cartec Engine Cleaner MV40. Then let it soak in for 1-5 minutes.
 - b. In case of stubborn dirt, use a Cartec Detail Brush (3039/10) to further loosen dirt.
3. Clean the engine compartment thoroughly with a high-pressure washer.
4. For an "as new result", spray the drying engine compartment with Cartec Motor Fresh (1101).

Tips & Tricks:

- ✓ Can also be used on door pillars and on and around the petrol cap.
- ✓ Effective cleaner to remove polish residues.
- ✓ Ideal for removing silicone rubber and sealant at car body repair shops.
